

Low Level Laser Treatment for Thinning Hair

LaserCap™ was created by **Michael Rabin, MD** in collaboration with internationally recognized hair restoration surgeon **Robert Haber, MD**, Harvard-based photomedicine expert **Michael Hamblin, PhD**, and M.I.T. trained optical physicist **David Smith, PhD**. With 224 individual 650nm 5mW lasers in a flexible, hermetically-sealed dome-shaped membrane that fits comfortably in almost any hat, and powered by a small belt-clip battery pack, it offers your patients the low level laser power of an in-office clinical unit in the comfort of their home.

PATIENT BENEFITS

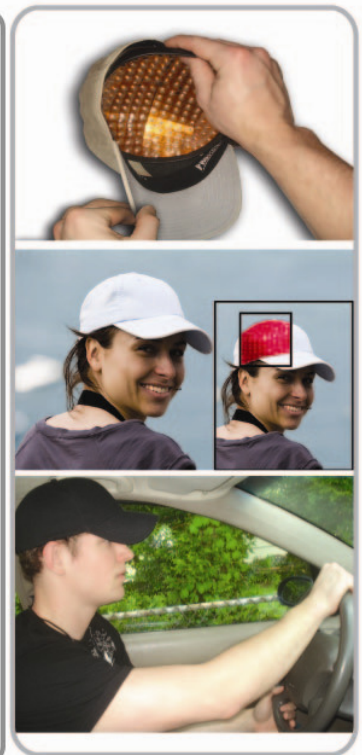

- Completely Portable And Easy To Use
- Hands Free...Comfortably Fits In Almost Any Hat
- Convenient And Discreet
- Use At Home, While Walking, Driving... Anywhere!
- No Weekly Trips Back To The Office
- Compatible With Other Hair Loss Therapies

PHYSICIAN BENEFITS

- Another Treatment Option For Your Female Patients
- Complements Finasteride And Minoxidil Treatments
- May Offer Added Benefit For Your Surgical Patients
- Low To NO Capital Outlay To Provide LaserCaps For Your Patients – Ask Us
- Available By Physician Only – So You Can Better Manage Your Patient Outcomes
